SUMMARY

Procurement & Operations Transformation professional with **5+ years** of experience delivering **cost optimization** and **spend efficiency across direct and indirect categories**. Proven track record of ₹1+ Cr savings through **sourcing analytics**, **process redesign, Lean deployment, and SAP-enabled controls**. Experienced in KPI-led procurement diagnostics, **operating model improvement**, compliance alignment, and cross-functional stakeholder management. MBA (IIM Udaipur) with exposure to **digital procurement**, **Industry 4.0**, and **GenAI-led transformation initiatives**.

CORE CAPABILITIES

Procurement & Spend Management: Direct & Indirect spend optimization, Strategic sourcing support, Spend Analytics & Cost Diagnostics, Supplier performance monitoring, Procurement KPI design. **Digital & AI-Enabled**: AI driven process optimization, Data driven decision intelligence, SAP-Enabled spend visibility, **Operating Model & Process Excellence**: Target Operating Model support, change management, Lean Six Sigma (GB), Workflow automation & SOP Standardization, Root Cause Analysis

PROFESSIONAL EXPERIENCE

Private Banking Manager ICICI Bank — June 2025-Present

- Managed ₹140M **portfolio**, improved **AUM**, **client retention**, **turnaround time**, and **compliance** through portfolio and process analysis.
- Grew AUM by **₹ 110M** through analytics-led investment insights using Power BI and CRM tools.
- Improved **compliance** and turnaround time by streamlining high-value transaction workflows and **AML** controls.
- Conducted **portfolio risk assessments and behavioral analytics**, improving client retention by **15%**

Executive Operations Bunge — July 2019-June 2022

- Delivered ₹20M annualized cost savings across direct (raw materials, utilities) and indirect spend (maintenance, manpower, consumables) through structured cost diagnostics and sourcing efficiency initiatives
- Conducted spend analysis and value lever identification including FTE optimization, line balancing, and workflow redesign
- Implemented **Lean and 5S practices** across shop-floor operations, reducing waste, improving productivity, and strengthening workplace discipline.
- Designed plant-level procurement KPIs (Cost per MT, Labor Productivity, Maintenance Spend %) aligned with finance and procurement governance
- Generated **₹ 7.2M incremental revenue** through targeted process optimization projects aligned with cross-functionabusiness priorities.
- Supported **new plant operating model** by managing **293+ asset additions**, preventive maintenance schedules, and manpower planning in SAP.
- Collaborated with global teams (Bunge Spain) on **KPI digitization and Industry 4.0 integration**, enhancing real-time visibility and decision-making through SAP and Power BI.
- Led **Kaizen deployment across 8+ departments**, improving OEE, embedding best practices through standardized SOPs.
- Built the asset management framework for a new plant by managing 293+ asset additions and developing preventive maintenance task lists in SAP, improving equipment reliability.
- Implemented **ISO 14001 Environmental Management System**, ensuring regulatory compliance and strengthening sustainability standards.
- Conducted structured **root cause analyses** (5-Why, Fishbone) to eliminate production bottlenecks and reduce recurring operational issues.
- Awarded **'Best Stop Story'** for driving high-impact safety and operational excellence initiatives recognized at the organizational level
